

Columbus Motor Speedway....June 2, 2007

Started: 10

Finished: 9

The #26 Great Deals/McGunegill Engine Rick Turner Ford Fusion finished 9th this evening in the Sizzle Marine 125 Presented by E M H and T and Howe Racing at Columbus Motor Speedway in Columbus, Ohio...About 3 PM this afternoon it sure looked like we would not get this race in as a heavy storm moved across the racetrack and flooded the pit area...After about 90 minutes of work from the Columbus Motor Speedway crew they had the pit area ready so we could again work on our cars and the weather held off for the rest of the evening.....Rick qualified 10 and fought a mishandling car all evening, but held on to finish 9th in the final standings for the evening.....A good field of cars were on hand for the evening and 26 cars took the green flag...We travel to Anderson Speedway next week for the Great Deals 125 off the high banks at the Anderson Speedway.....Rick has notched one victory at this track and would like nothing better than to match that feat in the Great Deals 125...
