

Anderson Speedway....June 9, 2007

Started: 1

Finished: 3

The Great Deals Race Team traveled to the Anderson Speedway, Anderson, Indiana on Thursday June 7 for a test session prior to this Saturdays Great Deals 125...The Great Deals/McGunegill Engine Ford Fusion was fast and we had a good practice session and was please with the results form testing....Saturday, race day, saw a beautiful Central Indiana day as Rick took the track for a qualifying run and solidly placed the Great Deals car in the field with a 7th place qualifying run....But, the luck held out and on the "invert" the # 26 Great Deals/McGunegill Engine Ford Fusion was moved to the pole position and we will lead the field to the green flag in tonight's race...On the start of the Great Deals 125 Rick settled into a comfortable position and was running fourth just waiting for the final laps to roll around to make a move to the front....Jeff Lane was dominating the race when a engine problem put him in the pits for the rest of the eventing an Rick moved into third...Right behind his team-mate Bret Miles Jr. who was running second...For the next 45 laps the two Great Deals cars battled it out for the second place finish...Rick ran the Great Deals car to a third place finish.....Chris Gabehart was the winner of the Great Deals 125 with Bret Miles Jr in a Great Deals car second and the # 26 Great Deals/McGunegill Engine #26 Rick Turner Ford Fusion in third...After the race you could see how happy Rick was for a third on the evening but when you saw him look at the #32 car and Bret Miles Jr. you could see in his eyes how proud he was of the young Great Deals driver...You see, Rick Turner is also the Crew Chief on the Bret Miles Jr car and Bret had just finished second in the car that Rick had worked so hard to make ready for the young Great Deals driver....This is truly a TEAM EFFORT from all of our Crew.
